Project Sequence

Preparation:

Step 1: Where: Select and locate your selected city
Step 2: Why: Research the city, travel requirements (immunization, identification, currency) and considerations (cost, flight time, airports), tourist attractions
Step 3: How: Create a map using LED lights to show origin and destination.

Sharing Knowledge:

Step 4: Create a brochure to guide prospective travelers.
Step 5: Use 3-D Doodlers to create a model of a tourist attraction
Step 6: Hold a geography fair for students in the school to review brochures, maps, and tourist attractions. Skype with students outside of the school in order to share about cities around the world.

Reflection:

Step 7: Where will you travel? Google Form for prospective travelers and agents
